Copyright, Canada, 1954, by Henderson Directories Ltd., 279 Garry St., Winnipeg, 1

Introductory

The present volume for 1954 is the 47th edition of Henderson's Directory of Regina. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all parts and includes all essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting on page 7 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 21 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street, and showing the occupant.

The intersecting streets are shown in the order that they come.
△ Denotes that there is a Telephone in the house.
● Denotes that someone living in the house is the owner.

THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 169.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

REGINA POPULATION, in excess of 75,500

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Regina Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Regina may be obtained.

ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully,
The Publishers,
HENDERSON DIRECTORIES LIMITED.

October, 1954

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES LIMITED,
PUBLISHERS.

Steam turbine Electric Plant owned by City. Equipped to burn either coal or oil.
1661 Street Lamps with 165 miles of lines required to service over 21,241 consumers.
Water system from artesian wells and Buffalo Pond Lake include 69 miles of supply line and reservoir of 30,000,000 gallon capacity.

Water main	129 miles
Hydrants	1,005
Meters, over	14,900

Regina

(By Courtesy The Regina Chamber of Commerce)

Chief Sitting Bull made the first recorded visit to the present site of Regina when he arrived there in 1881 on his way to Wood Mountain where the Sioux made their head-quarters while seeking refuge in Canada after the Custer Battle on the Little Big Horn in Montana. The locality had long been known to the natives as "Heap O' Bones," owing to the fact that a great pile of buffalo bones garnished the low hills nearby. The first settlers called the place "Pile O' Bones," and this name appeared in official documents. The name, "Wascana," given to the creek running through the area is a corruption of the Cree word for Pile O' Bones.

It was intended to name the place Victoria, in honour of the Queen, but that name had already been bestowed on the Capital of British Columbia. The matter was referred to Princess Louise, the daughter of Queen Victoria, whose husband

Aerial View of Regina

was then Governor General of Canada, and she selected the name "Regina." The city was named as the first train arrived at nine o'clock, August 23rd, 1882. A tent settlement had sprung up in the spring of that year.

Regina was incorporated as a City in 1903, but the little community had already been the seat of Government of the North West Territories for twenty years. It became the Provincial Capital when Saskatchewan was formed in 1905.

At the time of its incorporation Regina had a population of 3,000. Today it has a population of 75,500. While not what might be called a large city, it is the fourteenth largest of all Canadian Cities. It may seem small for a Capital, but in Western Canada a city of 50,000 or more is often of greater significance from the point of view of commerce and distribution of goods than a City of several times the population in older countries.

Regina is the financial centre of the Province and it holds an important place in the life of Saskatchewan by virtue of the fact that it is the Capital and by the commercial and industrial development which has taken place within it.

The Legislative Buildings are among the most stately and beautiful in Canada. They are situated on the banks of Wascana Lake and surrounded by spacious grounds which have been beautifully developed and landscaped. The building itself is regarded as an ideal structure for legislative work. It was first begun in 1908 and cost in the neighborhood of $3,000,000.00.

Regina contains Churches of many denominations and is the seat of the Anglican Diocese of Qu'Appelle and of the Roman Catholic Archdiocese of Regina.

Regina is one of the best paved cities in Canada for its size. It has approximately 60 miles of paved streets, over 125 miles of graded, oiled and gravelled streets. It has 105 miles of concrete and 90 miles of plank sidewalks.

The City has 125 miles of domestic and 89 miles of storm sewer and 129 miles of watermains with 821 hydrants and over 13,500 meters. There are two trunk sewers, a sewage disposal works and an incinerator for disposal of garbage.

A modern fire department is maintained by the City with fire stations, a force of 124 well trained firemen, and fully equipped with modern fire fighting apparatus.

Because of its natural attractions and the improvements which its people have made to it in the course of its short history, Regina is a very popular tourist and convention centre. Hotel accommodation is suitable for small and large gatherings and many thousands annually take advantage of its splendid facilities.

Farm Scene near Regina

AGRICULTURE

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is the greatest grain growing province in the Dominion and produces annually one half of the Canadian hard wheat crop. As producer of quality hard wheat Saskatchewan leads the world, having won the world's prize eleven times during the past sixteen years.

While Saskatchewan has always been considered the Premier Grain Growing Province in the Dominion there is abundant evidence that she will, in the not distant future, occupy an equally outstanding position in the realm of livestock. At the Royal Winter Fair, Toronto, and the International Exposition, Chicago, the high quality of our Saskatchewan livestock has been demonstrated over a long period of years.

AVIATION

Regina was a pioneer in the field of aviation. It was one of the first cities in Canada to have a municipal flying field. This is well equipped with a fine hangar.

Regina Flying Club was established in 1927, and received the fullest co-operation from Civic Authorities. It built a hangar for its own operations.

The Airport area now comprises 900 acres with additional space available and subject to easy development. It has three runways, 3,500 feet long and 150 feet wide. These are all hard surfaced.

There is a very substantial administration building and control tower at the airport and it is particularly well supplied with taxi strips capable of handling any weight.

Regina is connected with the Transcontinental line of the Trans-Canada Airlines and is the southern terminal of the Canadian Pacific Airline which provides a local service to a number of Saskatchewan Cities.

Regina is favourably suited to be a central point on World routes extending from the West Coast to Europe and from Eastern and Central United States through Alaska to the Orient. It is merely at the beginning of its potential development and it is extremely fortunate that its foundations are so well laid.

BANKS

There are 7 Chartered Banks in Regina—Bank of Montreal, Bank of Nova Scotia, Canadian Bank of Commerce, Dominion Bank, Imperial Bank of Canada,

Royal Bank of Canada, and the Bank of Toronto. All are members of the Regina clearing House Association, which made a record in 1953 with total clearings for the year standing at over $1,425 000,000. A branch of the Bank of Canada is also located in Regina.

BENEVOLENT INSTITUTIONS

The Benevolent Institutions in Regina include the Masonic; The Royal Arch Masons, Knights Templar, Scottish Rite, I.O.H.E., A.A.O.N. Mystic Shrine, Eastern Star. Others are: I.O.O.F., Manchester Unity, Knights of Columbus, St. Andrews Society, Sons of England, Sons of Scotland, Knights of Phythias, Dramatic Knights of Order of Khorassen, L.O.B.A. L.T.B., Royal Antediluvian Order of Buffaloes, L.O.L., Orange Benevolent Society, Order of Alpha, United Commercial Travellers, and the Fifteen Hundred Club of Regina.

Parliament Buildings taken from across the Wascana Lake

BUILDING

Regina has experienced two outstanding periods of building activity. The first of these was 1911 and 1913. In these three years permits totalled over $17,000,000. The second was the period 1926 to 1929 when building permits exceeded $24,000,000. Regina is now in a third period. Value of permits in 1953 exceeded $27,000,000.

Business and public buildings are of brick or stone construction. Private dwellings are of brick, wood, or stucco, the latter has become especially popular of recent years. The Legislative Building, the Hotel Saskatchewan, the Dominion Government Building, the Post Office, Canada Life Building, McCallum Hill Building, are a few of the structures to which Regina can refer with justifiable pride.

CENTRE FOR THE TOURIST TRADE

Not only does the "Queen City of the Plains" have much of interest [illegible]

To reach the capitals of the provinces and lands of the province you travel through a fascinating country. A land of broad open spaces and boundless rolling plains of fertile soil and fine timber, of wide expanses of waving grain and of inspiring beauty of lofty chains of snow-capped mountains and rugged peaks and that holds you in its spell as nothing else will when you are gone.

On the north shore of Lake Wascana are the buildings and grounds of the Provincial Government. Visitors are always welcome and can visit the library and reading rooms during the day.

In the library will be found many relics of great historical value, chief of which is the Confederation Table. Around this massive board sat Fathers of Confederation who brought the scattered parts of the settled East into the unity which today as the Dominion of Canada holds a place of high reward among all countries of the world.

The school is not far from the Normal School on the other side of the lake. Here in its native form, many of the birds and animals that make their homes upon the prairies

Henderson's Regina Street and Avenue Directory 1954

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or householder or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In apartment houses the number denotes the number of the apartment. The profession or business of individuals or firms is given only at their respective places of business, to find occupations of others refer to Alphabetical List of Names.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues will appear first and the east side (odd numbers) will appear first on Streets.

The symbol ✦ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family but as the publisher cannot and does not guarantee the correctness of the information furnished nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ also following names denotes houses having telephones

This directory includes some lots or blocks reading "Occupied" or "Vacant". In each [illegible]

Public Libraries in the West

Business Insurance

The Classified Section of the City Directory insures your business against the loss of a prospective customer who finds only your competitor listed under headings covering your business

Make yourself easy to find

More than ninety per cent. of all advertising mediums are discarded before they're a year old

After the new ones come out your advertisement in the directory is still good, for old directories are seldom discarded while they hold together. Years later many of these directories will still be in active use Your advertisement is still in service

Do you want LONG-LIVED advertising?

Please! Do Not Lend Your CITY DIRECTORY

•

IT COSTS YOU MONEY
Every Time It is Loaned

•

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service

The reason is:

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but **One Subscriber** to the City Directory **—the One Subscriber** would of necessity have to absorb **The Whole Cost.**

If there were **1000 Subscribers**—each one would **have to absorb 1 1000 Part of the Whole Cost.**

From which it is obvious that the **Greater** the number of subscribers—the **Lesser** the cost to each

Every time you loan your City Directory the **Less Necessity there is for the Borrower to subscribe for the Service.**

More Borrowers result in **Fewer Subscribers**, which means **Increased Cost.**

HENDERSON DIRECTORIES LTD.

MEMORANDUM

Common Sense

About City Directory Circulation

•

THE TRUE VALUE of advertising circulation is **circulation consulted.**

TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for **three hundred and five days,** therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Consultations or
Circulation Consulted

More than ninety per cent. of all advertising mediums are discarded before they're a year old

After the new ones come out your advertisement in the directory is still good, for old directories are seldom discarded while they hold together. Years later many of these directories will still be in active use. Your advertisement is still in service

Do you want LONG-LIVED advertising?

HENDERSON DIRECTORIES LIMITED

Business Insurance

The Classified Section of the City Directory insures your business against the loss of a prospective customer who finds only your competitor listed under headings covering your business

Make yourself easy to find

Common Sense

About City Directory Circulation

•

THE TRUE VALUE of advertising circulation is **circulation consulted.**

TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for **three hundred and five days,** therefore—

$$1000 \times 3\tfrac{1}{2} \times 305 =$$

1,067,500

Consultations or
Circulation Consulted
